The Leigh and Bransford Parish Neighbourhood Development Plan

INTRODUCTION

A Neighbourhood Development Plan has weight in the planning process. It is often drawn up by volunteers, sponsored by the Parish Council, in order to represent the views of the people who live locally and who have a personal interest in the future of our Parish.

Neighbourhood Development Plans came out of the Localism Act which was intended by central Government to give local people a say in what happens in and to our communities. They are intended to complement local plans, in our case the South Worcestershire Development Plan, drawn up by Malvern Hills District Council. They cannot conflict with these plans but they can give communities a chance to shape some of the changes that will take place in our villages and countryside in the future.

Because the SWDP is still in the process of being agreed and ratified by central Government, uncontrolled development is taking place in our Parish, as it is across the country as a whole. There is very little we can do to stop development that is in the pipeline, although it is essential that we try.

What we can do is draw up a Neighbourhood Development Plan that will influence the changes that happen in the future. The NDP will give us an evidence base which will count in future decision-making in the Parish Council and at MHDC.

More than that, as development levy money is paid over by developers to local authorities, the Neighbourhood Development Plans will provide an evidence base to support applications from our communities for community amenities and projects.

That's the theory.

We need to create that evidence base and we can only do that by using the responses you make in this survey. Please reply to the survey as fully as you can. If you run out of space write on the back of the relevant page or add a sheet of paper.

We are the people who care about where we live and the more we can articulate what we care about the clearer our voice will be.

*If you would like more copies of the survey it is available to download on the Leigh and Bransford Parish website. At the time of going to press you will also be able fill in the survey on-line on the web-site. If you're filling the survey in on paper then please return it in the envelope provided by 14th September. That is also the deadline for the on-line survey. Please fill in what you want to fill in. The more you contribute the greater our evidence base. **Please return in the envelope provided for confidentiality. You can post it or you can leave it in the box at The Fold or Leigh Sinton Post Office.***

RESPONSES TO QUESTIONNAIRE

This version of the questionnaire includes the collated responses after each question.

For those questions with an "objective" answer; yes/no, or a score, the number of responses for each answer is included in a separate table. Each table contains the responses for each of the seven areas: Bransford, Brockamin, Coles Green , Leigh, Leigh Sinton, Sandlin, and Smith End Green. The columns headed "No." indicate the number of responses from each area with the "%" column showing the percentage of responses for that area for each answer. The "Total" columns ("No." and "%") add all responses from each area.

There were a number of "subjective" questions, "What would you like to see about....?" etc. to which there is no single answer. Naturally there was a wide range of responses and an attempt has been made to group, or trend, these answers, which are also presented as tables. The tables are only a summary of the many useful comments, which will be expanded in the text of the Plan.
